

Project Design Phase
Proposed Solution Template

Date	18 June 2026
Team ID	
Project Name	SHOPEZ : E-commerce Application
Maximum Marks	2 Marks

Proposed Solution Template:

Project team shall fill the following information in the proposed solution template.

S.No.	Parameter	Description
1.	Problem Statement (Problem to be solved)	Customers spend significant time searching, comparing, and purchasing products from different stores. There is a need for a centralized and convenient online shopping platform.
2.	Idea / Solution description	SHOPEZ is a MERN-stack e-commerce platform that allows users to browse products, search by category, add products to cart, place orders, and manage their profiles. Admins can manage products through a dedicated dashboard.
3.	Novelty / Uniqueness	User-friendly interface, category-based filtering, product search, order tracking, and admin product management integrated into a single platform.
4.	Social Impact / Customer Satisfaction	Saves customers' time, improves shopping convenience, provides easy access to products, and enhances overall customer experience.
5.	Business Model (Revenue Model)	Revenue can be generated through product commissions, featured product advertisements, premium seller subscriptions, and delivery service charges.
6.	Scalability of the Solution	The platform can be scaled by adding payment gateways, product reviews, recommendations, multiple vendors, mobile applications, and cloud deployment.
